

Use scientific, analytical methods effectively in research: Prof Wahid Srinagar, Nov 9: Central University of Kashmir (CUK) Vice-Chancellor, Prof Abdul Wahid, today advised the research scholars to effectively utilize scientific and analytical methods while pursuing their research studies in different fields.

“The candidates aspiring to pursue research in any stream should choose the topic with utmost seriousness and should thoroughly study the material available about the subject from different sources,” Prof Abdul Wahid said while delivering the valedictory address during the concluding ceremony of the week long workshop on “Research Methodology” organized by the Department of Management Studies CUK at the campus office here.

Prof Abdul Wahid who was flanked by University Registrar, Dr. Abdul Gani and Head of the Department Management Studies, Dr. Farooq Ahmad Shah said the researcher should collect data relevant to the research topic, adding the work should be original, qualitative, relevant and purposeful.

The Vice-Chancellor said the University Grants Commission, the umbrella body of the higher educational institutions in India, has hosted the research papers of scholars on its website in order to curb the menace of plagiarism. “The research projects have been made public so that the people could evaluate them,” he said adding that these research documents also provide an insight to the aspiring researchers.

Prof Abdul Wahid expressed his gratitude to internationally acclaimed research expert, Prof. V V Haragopal of Osmania University Hyderabad for his presentations about various research tools which could be adopted by the budding researchers.

CUK Registrar, Dr. Abdul Gani said the varsity was mulling to provide many facilities to the scholars pursuing research through CUK. “The scholars will be provided remote access to the research material and other documents,” Dr. Gani said. He said the University would be holding more workshops for upgrading the knowledge of the scholars.

Dr. Farooq Ahmad Shah thanked the Vice-Chancellor for his support and cooperation in holding the workshop. Dr. Farooq Ahmad said the workshop has been successful in making the scholars aware about the ways and means to conduct the research.

Dr. Fayaz Ahmad Nikka Associate Professor conducted the programme while as Mir Insha Farooq Assistant Professor presented the vote of thanks.
