Vice Chancellor's Message

It gives me pleasure to extend a warm welcome to aspiring students of the Central University of Kashmir. This is the second year of our academic journey and we have been able to leave some indelible marks on the academic scenario of Jammu & Kashmir. Though the University is still in infancy, we are committed to establish it as a reputed centre of learning.

Pending the establishment of the University at Ganderbal, the University is operational from a transit campus at Sonwar, Srinagar. The University has successfully launched Masters Degree Programmes in English, Information Technology & Management Studies from the academic session 2009. The University is offering three more Masters Degree Programmes and one Integrated B.A, LLB Programme from the current academic session and we are in the process of identifying more areas of study in which we would like to launch more programmes in coming academic session. We are committed to provide excellent infrastructure and highly professional and competent faculty to our students besides all other student support services.

With the permanent campus site of the University approved and the land of more than 500 acres in the process of transfer to the University, the focus of attention in the years ahead would be planning and development of permanent campus of our University. System building and development and delivery of relevant professional and job oriented programmes, meeting acceptable yard sticks of quality assurance are the critical concerns for the University so as to create a world class teaching-learning environment vital for developing a solid knowledge society.

(Prof. Abdul Wahid)
