### APPEAL

The Central University of Kashmir is envisaged to become a world class University, provide quality higher education and develop investigating and research skills in students. For the past five years, we have been striving to hone independent cognitive and affective growth of our students. We, at the University, believe that without active participation and collaboration of all stakeholders, it is not possible to make our future plans and/or succeed in achieving the goals that we have set for ourselves. We have therefore decided to revisit our vision and mission perspectives. In this regard, we seek your valuable comments and suggestions vis-à-vis the University's future growth and development. How would you like this University to grow and in what direction? You can play your role by writing to me directly either by post or emailing at [miraslam@rediffmail.com](mailto:miraslam@rediffmail.com). Your suggestions/ideas will help us develop a more viable **Perspective Plan** that will guide us in building a responsive and responsible institution for our present and coming generations.
