The university is presently operating through a number of campuses acquired on rent basis, owing to the fact that construction of multi-storeyed buildings at original site of university campus at Tulmulla (Ganderbal) has not yet been completed. Presently, the construction work is going on for pre-engineered 2-storied buildings which are expected to be completed within next six months. Hopefully, in the month of June-2016 some teaching departments may be shifted to Tulmulla (Ganderbal). At present, the three rented campuses are housing various teaching departments, the details of which are given as under:

NEW PROGRAMMES
The University has started a couple of programmes from the academic session 2016. These programmes are likely to include Integrated B.Sc./M.Sc. Chemistry in the School of Physical and Chemical Sciences and a couple of B.Tech. courses in the School of Engineering and Technology. In addition to this, integrated M.Phil-Ph.D programme has been started in the Department of Urdu, Mathematics and Political Science. Besides some short-term certificate/ diploma courses in Dress Making, Mobile Repairing, Auto Mobile Engineering, Library Science, Physical Education, Legal Drafting and Petition Writing, Desk Top Writing & Food Science Technology are being started at Tulmulla (Ganderbal) for the benefit of the local community.

NEW COURSES
In addition to this, the university is proposing to launch some on-line MOOCs courses including Certificate Course in Pre-Primary Teachers Training, Early Childhood Care and Education (ECCE) and Computer Applications. Besides these, the University has also introduced higher order skill development vocational degree programmes namely B. VOC in Retail management & B.VOC in Tourism & Hospitality in consonance with the national requirements as outlined by the National Skills Development Corporation and the guide lines of the UGC.

BOARD OF STUDIES
The academic programmes run by this University have been designed in a manner to pursue and promote excellence, innovation and creativity. A significant departure has been made from traditional lecture method and new ICT enabled pedagogy has been adopted. As a result of that substantial gain in learning, divergent and critical thinking has been achieved through various programmes effective linkage with community and society has been established. The university follows a systematic process in designing and revision of existing curriculum. For inclusion of new and/or revision of courses, basic work is made in terms of in-house discussions by Departmental Committees of respective departments. Feedback of students is also taken into consideration by the faculty members. Based on these, Board of Studies (BOS) consisting of experts of subjects and faculty members together design the curriculum. Periodically as per requirement, the curriculum is developed or revised. Board of Studies have a wide representation of faculty and experts from the department of leading universities in the country. The recommendations made by Board of Studies are placed before the respective School Boards and finally before Academic Council for approval.

CURRICULUM DESIGN
The curriculum design through an equitable proportion of hands-on practical training for skill acquisition and sound theoretical knowledge serves to equip the students to face real-time challenges and societal needs. The curriculum attempts to address the needs of various stakeholders such as Industries, Government Agencies, Banking Sector, Educational Institutions, Tourism Department, Print and Electronic Media etc. The University gives a great deal of academic freedom enabling the introduction of new & innovative courses. The University with 16 departments has focussed more on skill based technical courses and integrated programmes to ensure employability of the pass outs. University uses the guidelines of regulatory bodies for developing or restructuring the curricula. In addition to the UGC model curriculum, the University is following the guidelines of other regulatory bodies like Bar Council of India, NCTE, Tourism Hospitality, Management Associations, etc. In view of the feedback from the stakeholders and the subject experts from across the country, revision of the existing programmes takes place.

Choice Based Credit System
1. The University has adopted a very comprehensive scheme of CBCS with a big basket of courses falling under Skill Enhancement Courses, Ability Enhancement Courses and Open Generic Electives. The details are given as under:
2.  Skill Enhancement Courses (SEC)
4.  Entrepreneurship development Skill (EDS).
5.  Communication Skills (CS).
6.  Information and Communication Technology Skills (ICT).
Abilty Enhancement Course (AEC)
1. Life Skill Development.
2.  Peace Education.
3.  Environmental and Sustainable development.
4.  Mental Health & Adjustment
5.  Media, Peace and Conflict Studies.

Open Generic Elective Courses

2. Introductory Econometrics
3. Value Education
4. Functional English
5. Database Management System
6. e-Marketing
7. Mathematics and Society
8. Politics and Governance
10. Functional Urdu
11. Modern Spoken Arabic.

ADMISSION
Central University of Kashmir along with other Central Universities of the country announces admission for July Academic session every year for all available courses. The University undertakes huge publicity in a planned manner. The admission notification is issued as advertisement in leading state and national daily newspapers. The notification of admission contains detailed information about the UG, PG, Integrated and research Degree programmes which include the intake of students, eligibility criteria and process of admission. A prospectus of University is also distributed to the students in order to provide information to the aspirants who wish to join any course in our University. The academic, administrative and financial aspects related to the admission are also stated clearly in the prospectus and in the notification of admission. The same information including e-prospect is also kept available on the university website. www.cukashmir.ac.in.

CUCET THROUGH CONSORTIUM OF TEN CENTRAL UNIVERSITIES
For the last five years the entrance test is conducted jointly by a consortium of ten Central Universities on the basis of CUCET (Central Universities Common Entrance Test). The conduct of CUCET has been assigned to Central University Rajasthan. The University follows the academic calendar, provided by all newly established Central Universities. The notification contains information including the last date for receipt of application, details of fee, tentative date of entrance test, declaration of result of the entrance test and other relevant information pertaining to admission. The notification is kept available on the University website. The reservation of the candidate is being provided as per the norms of GOI which provides 51% for General Category and 49% for category candidates.

STUDENT DIVERSITY
The Central University of Kashmir is granting admission to around 50% of its total student's intake to the categories viz; SC/ST, OBC and PWD with diverse socio-economic background and specific educational needs. Therefore, it is obligatory on the part of the University to address the needs of the student's diversity. For this purpose, the University organises several orientation programmes for the students. The issues usually covered are pertaining to student's interest and motivation to pursue academic courses and other aspects like use of learning resources, participation in cultural programmes, hostel, transport problems and some other problems including adjustment, interaction etc..
ACADEMIC CALENDAR / CURRICULUM TRANSACTION STRATEGY

The University is preparing and notifying a consolidated academic calendar well in advance. In addition to this, a detailed plan showing Curriculum Transaction Strategy (CTS) has also been introduced. The main objective of CTS is to keep the students aware well in advance about the content, method of delivery and ready references at micro level (unit base) for the entire semester. Curriculum Transactional Strategy (CTS) has been introduced as an innovative practice to keep the learners informed well in advance about their teaching learning schedules. The entire teaching-learning process is student- centric. Apart from ICT-enabled teaching on the part of the teacher, adequate arrangements are in place to conduct tutorials, group discussions and presentations. The course teacher tries to give individual attention to each student to the maximum.

TEACHING-LEARNING PROCESS

The teaching-learning process has undergone a sea change during the last four years. In fact the teaching-learning process is ICT- enabled. Usually the teachers are making PPTs, which is followed by discussion. Students are encouraged to ask questions as and when they desire so. Teachers are trained to accomplish high order instructional objectives laying focus on comprehension & understanding on the part of learners. The affectivity of teachers is continuously being evaluated through C.I.A. where students are encouraged to make their presentation and reply to the queries and questions raised by the fellow students. The system of teaching-learning has been upgraded from one with the focus on rote-memory to the one with development of divergent thinking abilities. Students are encouraged to think critically, rationally and take active role in the deliberations within and outside the classrooms. The university has a pool of well qualified human resource sufficient to meet the requirement of the curriculum. There is some shortfall of ‘Associate Professors’ which remain unfilled. However, against these vacancies, contractual faculty is being engaged to meet the requirement.

STATUTORY BODIES

As a Central University, the University plans and manages its human resources strictly in accordance with the guidelines of MHRD and the UGC. The decisions taken in the Executive Council (EC) and Academic Council (AC) and other statutory bodies constituted as per the University Act are implemented in letter and spirit.

EXAMINATION AND EVALUATION

The Examination and Evaluation wing of the University is continuously working for increasing credibility of the examination system. The University is at present holding its examinations as per the following scheme:

<table>

TIME BOUND DECLARATION OF RESULTS

The average time taken by the University for Declaration of End Semester Examination results is one and a half month (45 days). The results are uploaded on the University website. However, the efforts are on to minimise the period of declaration of results to one month only. A complete transparency in the evaluation process has been ensured. Candidates are provided photo copies of their evaluated answer script/s on request. Further, there is provision of re-evaluation also. The entire process of examination and evaluation is highly confidential. The Examination and Evaluation Wing is regularly holding End Semester Examination workshop and so far 04 such workshops have been conducted. The recommendations made are subsequently implemented for improving the system.

LEARNING OUTCOMES

The University has to a great extent succeeded in achieving the intended learning outcome. In fact, the entire process of teaching learning has been restructured to achieve the learning outcomes one by one through classroom transactions, tutorials, group discussions, field visits, small projects and case studies. Mostly the remarks of the concerned course teachers on presentation/
test papers and the grades achieved in End Semester Examinations are analysed to overcome the deterrents identified in the process. In addition to this, End Semester Examination workshops are conducted to debate and discuss thoroughly, the omission and commissions if any and remedial measures are suggested. Besides this, use of e-books, use of internet in the browsing centres and focus on making PPTs- all have helped the students to learn more meaningfully and effectively.

**STUDENT SUPPORT SERVICE AND DIRECTORATE OF STUDENT WELFARE**

The University has created Student Support service through Directorate of Students Welfare. However, formulized and structured mentoring system is being initiated. A Central Placement Cell has been created with a focus on career counselling. The University does have a Grievance Redressal Cell. However, till date no grievance of serious nature has been received by the Cell. The University is committed to gender justice on the campus and has adopted a policy of zero tolerance. Creation of a Central Guidance Cell is being initiated. There is an Anti-ragging Committee and no serious ragging episode has been reported during the last 4 years in the University. The University has provided hostel facilities to the students. Three hostels are in place separately for boys and girls. The University is offering transport facilities to the students and buses are operated on different routes to bring the students to the campus and back.

**SCHOLARSHIP FOR PG STUDENTS**

The University is recommending and issuing certificates to students for obtaining Educational loans from banks and other agencies. The University has adopted a practice of awarding semester wise scholarships to the 2 toppers in each semester in each programme. The value of the scholarship is 5,000 per semester per student.

**NON-NET SCHOLARSHIP FOR SCHOLARS**

In addition to the JRF and MANF Scholarships, The University is granting Non-Net scholarship to all its scholars registered for integrated M.Phil- PhD programme

**OTHER SUPPORT SERVICES**

The University is offering other support services for students which are listed as under:

- For physically challenged students, reservation is given to them in admission.
- Infrastructure of the university is partially physically challenged friendly.
- For SC/ST & OBC, reservation up to the extent of 50% in admission is granted.
- All necessary facilities are provided to the students for participation in Youth Festivals, Cultural Competitions, and other seminars and conferences at regional and national level.
- Provision for Performance Enhancement for slow learners has also been made by the university through remedial teaching.
- Published work of students has also been initiated through wall journals, newsletters and paintings etc.

**STUDENT PARTICIPATION IN CULTURAL PROGRAMMES**

The University is ensuring participation of students in various cultural festivals being organised in different parts of the country particularly those sponsored by Association of Indian Universities. The students of this university have visited Baba Bhimrao Sahib Ambedkar Central University Lucknow, Sharda University Greater Noida, Mata Vishnu Devi University Katra, Jammu, Islamic University of Science and Technology, Kashmir, University of Kashmir and ICCR, Chandigarh and took active part in various activities like Rangoli, Collage making, painting, Mehandi application, folk singing and dancing, skit, debates and symposia. These students have demonstrated exemplary performance in these activities and bagged prizes from time to time. The female students have also shown keen interest in sports and cultural activities within the university. They have enthusiastically participated in social service camps like blood donation and those camps organised for devotees of famous Khirbhawani temple at Tulmulla, Ganderbal Kashmir. A number of female students have undergone “Breakthrough training for Personality Development” organised by ManFord Foundation USA. The female students are equally and actively represented on the University Literary and Cultural Club.

**STUDENT PROGRESSION**

There is 3 to 5% progression rate of students from PG to their research degrees. The programme wise completion rate of various programmes is given below:

### STUDENT COUNCIL
The University is managing a wide range of activities for its students. There is a student council in place. Student representatives are on the Board of Studies (BOS), Hostel and Transport committees, Canteen and Sports Committee and Alumni Association.

### UNIVERSITY GOVERNANCE/ LEADERSHIP
The University leadership is very receptive and takes pro-active steps to ensure that management system is effective and efficient. It is student friendly and quite frequently interacts with its stakeholders. It has succeeded in developing a work culture which is perfectly oriented to promote a culture of excellence. For planning and development of human resources, the
The university is following the guidelines of MHRD and UGC. These general guidelines are then adopted to cater the specific needs of the university in terms of its specific requirements and in relation to the number of programmes to be introduced from time to time. The teaching and non-teaching staff is deputed to various refresher/orientation, training, workshops, seminars and conferences to enhance their professional development.

ENSURING EFFECTIVE AND EFFICIENT UTILIZATION OF FINANCIAL RESOURCES
For ensuring effective and efficient utilization of financial resources, the University accounts are audited internally and also externally by CAG of India. In addition to this there are checks & controls in terms of GFR which are strictly being followed in practice. The institution has also constituted an Investment committee that guides the generation of income like adopting sweep accounts etc. The major source of funds to the university is Plan Grant received from the UGC. However, the university is also generating its internal resources by way of fee collection from the students. The funds of the university are deposited in SBI under short term/long term Accounts to earn returns.

IQAC
The IQAC is in place w.e.f June 2014. It is serving as a whistle blower to ensure that qualitative improvement is brought about in all the important aspects of the university namely teaching, research, extension and administration. The IQAC is visiting the departments, making on-the-spot assessment of teaching-learning process and suggesting remedial measures. The specific measures taken in this direction include a formalized structured system of student evaluation of the teachers, Students’ feedback on curriculum, learning resources, evaluation system, Extension lectures by Guest faculty from other universities, augmentation of learning resources including library, browsing centre, reading room, creation of smart classrooms, grant of financial assistance for conducting Minor Research Projects by the faculty, identification of inspired teachers to participate and compete at the national level, encouraging teachers to attend orientation and refresher courses outside the University system and orienting young faculty towards publication of papers in quality journals.

GREEN AUDIT
The green audit is done periodically. However, in the present circumstances some difficulties are being faced owing to the fact that the university is operating from several rented campuses. Efforts are on to construct buildings at its permanent campus at Tulmulla which may hopefully take a couple of years or more.

NIRF RANKING
It is heartening to note that CUK has obtained a slot in the National ranking in first rank band of between 101 - 150 along with Central University of Gujarat. This has happened within a short history of 6 years of the University and it is expected that if the university maintains and sustains the present pace of growth and qualitative improvement in teaching-learning process it will surely get a rank within first 100 universities within a short span of time.

BEST PRACTICES
The University has been continuously working for establishing good and innovative practices and in this direction the following measures taken by the University are worth to be mentioned here.

• **CTS as an Innovative Practice**  
Introduction of CTS as an innovative practice has helped to make the process of teaching learning more systematic, student centric, time effective and result oriented. This practice has been started as a micro level approach to teaching learning process.

• **ESE Workshop**  
The second innovative practice introduced in the university is conduct of End Semester Workshop at the end of each examination twice a year. The main objective of this workshop is to update and sensitize the faculty about the new innovations and techniques of evaluation. The errors and omissions on the part of evaluators, examiners, and paper setters if any are addressed to and remedial measures are being provided on the spot. Through this workshop, the faculty of the university is sensitized about the weaknesses and challenges about the examination system. The faculty of the University has showed significant improvement in their evaluation process. The University is arranging experts for special extension lectures on this occasion.

• **Online Feedback of Students**  
The third innovative practice introduced in the university is Online Feedback of Students for Teachers and the University System. The main objective of this feedback is to improve the teaching learning process. From this year, the students have submitted their feedback about their faculty and the university as a whole on-line. Through this feedback, the teachers are kept aware about their areas that need improvement from student’s point of view. The entire student feedback is
analysed and subsequently used for bringing about improvement in teaching learning process, Curriculum Designing and Instruction improvement in examination system etc.

- **Digitized Online Assessment (DOA.)**
  The University has recently started conducting second Continuous Internal Assessment through online mechanism. It is believed that the system being more efficient in terms of economy of time in conducting & declaring of results. This has been done on pilot bases and is restricted to only few departments. The said DOA being less subjective and more objective shall provide an opportunity to the students to achieve higher scores. It shall also help the students to prepare themselves for NET/SET/JRF, PSC screening tests and other competitive examinations. After carefully examining the feedback it is expected that DOA shall be implemented in all the departments of Central University of Kashmir.

**STRENGTHS**

- Central University of Kashmir has been established as a pace setting institution along with other 14 Central Universities. As such the focus in the University is on adopting multidisciplinary approach to create new knowledge with a social purpose. The curriculum designing, instruction and evaluation in this University has undergone a significant change and has set a departure from the traditional routine and rhetoric curriculum designing, teaching and examination. This policy shift is a major strength. In fact, the subject experts on our own Boards of Studies and School Boards from leading institutions at the national level including Central Universities, IIT’s, IIM’s, National Law Universities, NCTE, NCERT, have significantly contributed in this direction.

- Our teaching-learning process is completely ICT-enabled and student centric. We are following an innovation practice of Curriculum Transaction Strategy (CTS) wherein a detailed break-up of the syllabus at the micro level is provided to the learners at the beginning of each semester. The CTS contains the schedule regarding the number of lectures, number of PPTs, number of tutorials, discussions for each semester together with unit wise coverage through core-readings.

- Strength with us is our student-teacher ratio of 10:1. This ratio is helping us in paying individual attention to each student in the class catering to diverse needs of learners.

- The other important feature is our effort to cater to the diversities by enhancing inclusive character of our own classrooms: 50% of our students belong to SC/ST, other backward classes (OBC) & PWD categories.

**WEAKNESSES**

- The University till date could not develop its own campus owing to the poor quality of land allotted by the State Govt. in 2010. The construction of the University buildings at the allotted site (Tulmulla, Ganderbal) could not materialise during the last five years. As a result of this, the University started operating from multiple rented campuses in Srinagar. As an alternative, in the first instance, the University now has decided to construct pre-engineered buildings which are expected to be completed within the next four months.

- The University could not yet appoint faculty at the level of Professors and Associate Professors. 72% of the Professors positions and 92% of Associate Professors positions are still lying vacant because of non portability of pension.

- A number of academic programmes especially those which require establishment of laboratories with the state of art facilities could not be established due to rental nature of the existing campuses.

- Several programmes aimed at fostering social responsibility and community development could not take off.

- No organised sports activity for students could be managed due to lack of a full-fledged sports ground at the campus.

- Dearth of supportive staff is also one of the major issues which hamper the speedy disposal of the cases pertaining to administration, academics, research etc.

**OPPORTUNITIES**

- The University has a great scope for becoming a pace-setting institution in the entire northern region of the country.

- MOU with three northern central universities shall facilitate the following:
  - Credit transfer in all common programmes;
  - Professional development of faculty of the three universities through establishment of common Human Resource Development Centre.
  - Collaboration in Research and Consultancy;
  - Cultural Integration
  - Upliftment of the local community through Skill Development need-based courses to be launched at the site of the new campus.

- The University has great potential to become a Centre of Excellence in due course of time.

- The University is focusing on floating MOOCs for the benefit of distance learners.
• In view of the increasing public demand, the University is launching new programmes in the faculties of Science, Engineering and Technology.

• There is a scope for undertaking more extension activities for the tribal population residing within the jurisdiction of the University.

• The University is planning to start some selected courses for the student clientele in the area of Leh and Kargil also.

**CHALLENGES**

• Recruitment of teaching faculty especially at the senior levels of Professors and Associate Professors is one of the most serious challenges for the smooth functioning of the University. Special efforts need to be undertaken to attract talented faculty at these levels even if some relaxations in the service conditions may have to be granted.

• Construction of the University campus at the allotted site at Tulmulla Ganderbal is another serious threat in view of the fact that nothing has been done on this issue during the last five years. Under all normal circumstances, hopefully it is expected that within next two to three years, the campus buildings may come up at the allotted site.

• Serious attention and consideration is to be given to the retention of faculty especially those who have been appointed from outside the state. In the present circumstances, these faculty members especially Assistant Professors prefer to leave as soon as they get any opportunity to work in their own areas of residence.

31 Code of ethics for research followed by the departments
The Department follows strict code of ethics for all its research related projects. The scholars are advised to choose creative topics and discouraged to carry out research on repetitive themes. Department makes it a point for students to cross check with all state universities that the topic of their research has not been taken in the past or at present by any scholar in any of the universities of the state. The synopsizes are subject to strict scrutiny wherein the Department formulates a high level expert committee which comprises of at least two experienced external experts that deliberate on the topics on case to case basis and suggest revisions if any.

41 **Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology.**
   Yes. The Department carried out a detailed assessment and came up with the suggestion of launching M.Com from academic session 2017-18. The rationale for launching the programme was the huge number of institutions offering B.Com and limited avenues of doing M.Com in the state. Due to the vast demand supply imbalance the Department played active role in introducing the new course and formulated the modalities for the same including the best syllabus and some demanding courses like GST and Interest free banking. Which are currently taught in few universities only.

42 **Does the department obtain feedback from the students**
   a) Faculty on curriculum as well as teaching-learning evaluation? If yes, how does the department utilize the feedback?
      Yes: The department is updating the curriculum on annual basis.
   b) Students on staff, curriculum and teaching-learning-evaluation and how does the department utilize the feedback?
      Yes: feedback from the students on faculty has been collected and actions were taken accordingly.
   c) Alumni and employers on the programmes offered and how does the department utilize the feedback?
      Yes: the constructive suggestions were taken up and addressed on priority basis.

45. List the teaching methods adopted by the faculty for different programmes:
The Department of Politics & Governance appreciates the value of effective curriculum transaction strategies and even an excellent curriculum will not be fruitful if there are no appropriate transaction strategies. We believe that the main responsibility for curriculum transaction lies on the teaching faculty who are encouraged to use innovative and varied types of pedagogies to foster a learning environment for the students where intellectual understanding and critical thinking are nurtured. A broad range of teaching techniques are employed by our teaching faculty to achieve these goals. Apart from the traditional lecture method, we also utilize several complementary techniques like Seminar (small group teaching), Tutorials, Research seminar, Exercise classes, Workshops (classroom based practical classes), Problem-solving sessions, Work based practice and Fieldwork. Information Technology aids are used extensively to facilitate these techniques wherever necessary. In order to assess the effectiveness of our curriculum transaction strategies, continuous assessment is done through evaluation and through student feedback. Our assessment methods include not only tests and exams, but we also encourage exhibitions, performances, presentations, simulations, multimedia projects, and a variety of other written, oral, and visual methods to evaluate learning outcomes.

Mrs. Tahira Khatoon
Paper Presentations and Workshops (2012 - 2017):

• Attended Fourth Feminist Methodology Workshop, Genealogies of Feminist Enquiry: Exploring the Politics of Knowledge organized by Inter University Centre for Social Science Research and Extension, Mahatma Gandhi University, Kottayam, Kerala from 16-20 August 2016. Presented paper titled ‘Discourses on Privacy’ on 20 August 2016 at the workshop.

• Presented paper titled ‘Exploring Democracy through the Relational Approach’ at Fourth Young Scholars’ Conference on Democracy and Processes of Marginalization organized by Centre for Political Studies, School of Social Sciences, Jawaharlal Nehru University, New Delhi on 3-4 March 2016.

48. Give details of “beyond syllabus scholarly activities” of the department:

• Workshop
• Seminar Participation.
• Faculty Discussions.
• Climate Awareness Campaigns
• Right to Information Campaigns.

49-50: No change

51. Details five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

Weaknesses:
Infrastructure, & Lack of Dept. Library, Lack of Alumini Association. 2 Associate Positions Vacant, Impact of political Unrest on number of applications and diversity of students
Opportunities:
Since the Department is new it leaves a lot of Scope for Innovations in the academic field such as To launch Mphil/ PhD, PG Diploma, To launch Student News Letter, Establishment of Political Science Academic Association, Conduct Annual Academic Congress, Publish a Research Journal, Take up research Projects, Increase Research Output, Collaboration with diverse centres of knowledge and initiate Student and faculty exchange programmes

Challenges:
Lack of a Permanent Campus and infrastructure, to diversify student intake.

Strengths:
Young and Dedicated Staff, gender parity in faculty, Publications, most of the students are from rural background hence it provides us opportunity to contribute to marginalized sections of population

52. Future plans of the department.
- To introduce integrated M. Phil-Ph. D programme
- To incorporate new emerging courses in the syllabi of the M. A. programme
- To introduce diploma courses on Peace and Conflict studies and gender studies.
- To launch Student News Letter,
- Establishment of Political Science Academic Association,
- Conduct Annual Academic Congress, Publish a Research Journal,
- Take up research Projects,
- Increase Research Output,
- Collaboration with diverse centres of knowledge and
- Initiate, Student and faculty exchange programmes

47. Highlight the participation of students and faculty in extension activities:
   The students from the department participated in different social welfare activities. Some of them participated in the function of Relief and Reserach Trust, Srinagar and some participated in the activities of Shama Foundation, Srinagar a well known NGO. In addition to this the faculty members of the department participated in the outreach programme of Dr Naseer’s Group of Unani and Panchkarma Hospitals.
50. **Briefly highlight the contributions of the department in generating new knowledge, basic or applied.**

The Department has generated the awareness among the masses and elites about the conservation of environment. It was first time possible that the theology and religion was linked with the hardcore issues faced by the human beings on the surface of this planet.

51. **Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department:**

**Strength:**
Most of the faculty members in the department are polyglot and are good at textual studies. Five faculty members are having PhDs to their credit which enables the faculty to nourish the research based ambiance in the department.

**Weakness:**
As the University is operating from rented buildings therefore lack of sufficient infrastructure hampers the smooth growth of the faculty and students.

**Opportunity:**
The department is inter-disciplinary and multi-disciplinary in nature and therefore can offer more multi and inter-disciplinary courses to the students. It has a very high potential of exploring possibilities for student and faculty exchange at national and international level.

**Challenge:**
To cope up with modern techniques and methods of teaching and prepare the students for quality research in social sciences.

52. **Future plans of the department.**
The department intends to launch M.A. in Vedic Studies and M.A. in Islamic Studies. In addition to this the Department plans to launch a post-graduate diploma in textual studies. The department is in process of signing MoUs with different national and international institutions in near future. Further, the department intends to launch its annual research journal, the Revelation.

      i. Start-Up Research Grant funded by University-Grant Commission-Faculty Research Promotion Schemes (UGC-FRPS) for “Graphene Based Sensing of Tumor Cells GRAPHBIOSEN” of Rs. 10 lakh. The main goal of this project is to develop a biosensor, tailored Graphene Oxide (GO)-based multifunctional Nano platforms (GO-MFN). GO flakes of 100-150 nm size will be then modified with a monoclonal antibody or a small molecule inhibitor and with superparamagnetic nanoparticles of about 10 nm in diameter for penetration and sensing the tumor tissue.
      ii. Early Career Research Award (ECRA) funded by Department of Science and Technology- Science and Engineering Research Board (DST-SERB) for “Thin Film Skyrmion Spin Textures” of Rs.50 Lakh. The goal of this proposal is to synthesize high-quality magnetic thin films with chiral interactions that favour skyrmion formation. We will investigate new strategies for the formation and manipulation of individual skyrmions in patterned structures, which may directly impact applications in information storage and computation.
